

Building more caring,  
cohesive, & collaborative  
communities.

# SKILLS LAB

Choose the direction you want to grow.

---

Skills Lab is a personalized program targeted to meet the needs of your community or group. Each client has a unique mission, vision, and budget which Skills Lab allows us to support. We create a customized training by partnering with our clients to determine the skills necessary to achieve their specific goals.

## How does it work?

- Roots & Wings staff will collaborate with you to identify the key skills you want to develop and grow
- The training facilitators will then tailor a training that best suites your community
- We will facilitate the training and supply all materials needed
- Ongoing consultation for further skill development will be provided throughout the process

## What are people saying?

"Roots and Wings has been a blessing to the Dover Sherborn School communities. They have worked with our educators, students and families on developing leaders, building relationships and creating space for courageous conversations. Our work on cultural responsiveness has been enhanced by the commitment, integrity, teaching and guidance of the Roots and Wing team!"
