

Building more caring, cohesive, & collaborative communities.

# LEAD IN TER & TRA FAITH

Continue to embrace, empathize, and empower.

Lead In(ter&tra) Faith(LIF) is a two part workshop designed for youth leaders and their mentors. Part one gives youth the opportunity to explore how their beliefs impact their leadership and the challenges they face when connected to people within and outside their faith community. Part two provides mentors the tools to support the youth through giving effective feedback and promoting a growth mindset.

## How does it work?

- Roots & Wings Training Facilitators lead two 6 hour workshops
- Youth learn to use their faith practices as a tool to embrace and empathize as mentors learn to promote deeper engagement.
- We supply all materials needed for LIF and offer ongoing consultation before, during and after

## What are people saying?

"In a word, outstanding! We absolutely picked the right partners! Warm, personable, terrific with both youth & adults. The presentations were clear, in an open and encouraging manner, so that one felt comfortable asking questions or requesting clarification. They also encouraged interaction so that a roomful of strangers became more and more comfortable with each other."
